

Oranim Welcomes Ohio State University Students

This December, Oranim International School welcomed thirty students of education from Ohio State University in the United States, as part of a practicum on Inclusion in Multicultural Society. Dr. Rachel Ravid, Chair of the Department of Special Education in Early Childhood at Oranim, led their visit, exploring Oranim's unique model for bringing together diverse and multicultural populations. The visit combined encounters, lectures, workshops, visits to a variety of educational institutions, and educational field trips throughout Israel.
